

Dear Sir/Madam,

Availing this opportunity I would like to express my deep interest in working at your Company. I think myself a suitable candidate for this position because of my knowledge in the field of Computers (IT), which I developed during my Bachelor degree in Computer Sciences and Engineering from the Indian School of Mines, Dhanbad. My expected graduation date is May of 2015. I am currently looking for full time permanent positions with esteemed organizations like yours.

My curriculum comprised of courses like Database Management Systems, Analysis of Algorithms, Data Structures, Software Engineering and Computer Networks which have assisted me to gain profound knowledge in the field of Computer Science.

Successful completion of a Project in Database Management on Time Table Management System under the guidance of Dr. Chiranjeev Kumar (Head of Department, CSE) have refined my skills on MySQL and PHP. The portal is to go live on college official website in near future. Another ongoing Project on Database Management is on Management Information System which aims to manage information and automate various tasks for employees and students of ISM. Above mentioned skills amalgamated with passion for web development can prove to be a great asset for your company. I have gained considerable experience in web development by developing a Sport fest website for my college(<http://www.parakram.ismu.ac.in>) The site is built using Javascript, PHP, MySQL technologies. C, C++ and Java have been the strongest aspect of my coding.

Adapting to various work cultures, identifying and resolving bottlenecks and prioritizing have been striking features of my working style. In addition to the above, I strongly believe in learning and sharing my knowledge with my colleagues. "Knowledge parted is knowledge gained" has been my motto in life. I am keen to learn and am sharp at identifying and solving problems.

I am confident that my background and knowledge in the Information Technology arena coupled with my strong technical skills in software languages will prove an asset to your organization and add immediate value to your organization.

Given my background I aspire to take a leading role in today's world of Information Technology by contributing to it through self-development and making newest innovations. With strong sense of civic responsibility, good communication skills, international outlook, eagerness to learn, confidence, ability to work under pressure, flexible, dynamic, mature attitude I am strongly convinced that once given an opportunity I will prove myself as a productive member to your company.

With regards,

Shivanshu Goyal
Final Year (ISM Dhanbad)
